HONDA GENERATORS

The Honda **EU10i** is the first generator of its size to feature a microcomputer-controlled sinewave inverter that guarantees commercial quality electricity

The Honda **EU22i** generator is the evolution of the world's best-selling generator, the EU20i. With 200W more power under the bonnet, the EU22i is perfect for home back-up, job sites & camping applications

The **EU30i** weighs only 59kg and operates at 52dB(A)*/65dB(A), making it whisper quiet and one of the lightest generators in its class. Perfect for use with frequency sensitive equipment due to its microcomputer

The **EU30i** (Electric Start) and the EU30iu 'Handy' (Recoil Start). Both powered by advanced 4-Stroke engines, the EU30i is run by Honda's GX200 engine, while the EU30iu is run by Honda's GX160 engine.

The **EU32i** Inverter Generator is Honda's new replacement for the discontinued EU30i Handy. Not only is the EU32i more compact than the Handy, it's also 8.4kg lighter, making it one of the lightest generators on the market

Newsletter No. 231

Hi to everyone,

Spring is here, days are longer in daylight but the temperature is still cool. We have commenced Spring Wet, thankfully not too wet! The interesting question is will Dartmouth Dam spill? Currently sitting at around 99% capacity, Hume about 95% full. One more rain event would push water over the spillway. Will that happen? Time will tell – in the meantime the Murray River will continue to run just below flood level – a big river certainly getting a flush out this year.

Product supply; with the Covid-19 pandemic now easing in its third year the supply both manufactured single & complex assembled items is very challenging, especially here in Australia. In the past 2 years we have seen delays of 2-3 months on many assembled products – that has now extended out to 6 months and up to a year. We are having difficulty obtaining oil, air & fuel filters, some brand sizes of bearings, hand tools and the list grows each day. Our recommendation is place orders early, EG; if you want to purchase a generator for that camping trip at Christmas – order that generator now. Even oil and filters for machinery services after harvest, we source filters from 5 suppliers, that is five brands, we have some filters with no ETA from all 5 manufacturers. Dawmac for the past 18 months has been increasing stock levels and sourcing, where possible, quality alternative products to cover the supply shortage. Most events have returned, activities and events are plentiful, Shows, Ute Muster, B & S Balls, Field Days & Racing – just to mention a few. Berrigan has been saddened over the past week with the loss of two local identities – Judy Chisholm & Ross Austin. They will be missed but not forgotten. Our thoughts are with the families and friends of both wonderful individuals.

Cheers and Good Health—John P Lane (Managing Director)

COMING EVENTS

SEPTEMBER

TUES 20TH— THURS 22ND	HENTY FIELD DAYS
THURS 22ND	QUEEN'S MEMORIAL PUBLIC HOLIDAY DAWMAC CLOSED
SUN 25TH	FINLEY SHOW 'N SHINE
