Newsletter No. 236

Hi to everyone,
April has arrived, Easter is upon us. The weather continues its dry spell – no general rainfall since October last year? Just small rain showers and the odd thunderstorm.

Plenty of events on over Easter around the region. Though I feel most people will use the time to relax and catch up with some family and a few friends. Other families are tied to the land and with planting of the 2023 winter seasonal crop underway will have their movements restricted – with these farming activities. Easter Sunday for Australia this year is 9th April 2023 – but in Bulgaria (and many other Northern Hemisphere countries) Easter Sunday is 16th April 2023 – aligned with the Orthodox church. 7 days difference for Easter from one Christian country to another – Julian calendar and the Gregorian calendar.

Once easter is completed, the focus turns to ANZAC Day – Tuesday 25th April 2023. This day has become Australia's (and New Zealand's) special day of Remembrance. Just 14 years after federation in Australia on 1st January 1901 came the ANZAC day landing in Gallipoli on the Turkish Peninsula, 108 years ago. Australia as a nation was fighting in its first combat action – a fledging country keen to demonstrate its bravery and commitment to the empire.

Until next newsletter.
Live well and think heartily.
Cheers and Good Health—John P Lane (Managing Director)
